### Notification Information

## Notification is required when making applications within 500 feet of listings in the Registry.

### Timing of the notification-

At least 12 hours but not more than 72 hours prior to the application. (Regardless of the type of notification used.)

### Notification is made when the required information is:

- ✓ Provided to an adult at one of the three listed phone numbers.
- ✓ Left as a message on an answering machine at the “day or night” number listed.
- ✓ Left on a door hanger at the Registry listing, following at least 2 unsuccessful phone attempts.
- ✓ Sent by certified mail, fax or email
- ✓ Provided by personal contact.

### Notification shall consist of providing all of the following information to the individuals on the registry:

- ✓ Date (of application)
- ✓ Location (application site),
- ✓ Earliest possible start time and latest possible finish time of application. The range between start and finish times may be no greater than 24 hours.
- ✓ Brand name(s)
- ✓ EPA Registration Number(s)
- ✓ Active ingredient common name(s) (if on the label) for all of the pesticide products which may be used.
- ✓ Business contact information:
  - Name -- Telephone number -- Business license number (BU- - -)
- ✓ If request by an individual listed in the Registry, a copy of the label for every pesticide used provided to them within 10 days of the request.

### Keep records of notifications for 3 years.

- ✓ **Exceptions.** The following types of application do not require notification.
  - 1) An application of a pesticide within detached structure.
  - 2) An application of a pesticide directly below the soil surface.
  - 3) An application of a pesticide in a tamper-resistant bait station.
  - 4) An application of a pesticide to a tree or utility pole by means of injection.
  - 5) Application of swimming pool maintenance chemicals
  - 6) An application of a disinfectant or sanitizer.

June 13, 2023

Dear Pesticide Application Business,

This is the Commonwealth's Pesticide Hypersensitivity Registry. The registry consists of a list of individuals who have been verified by a physician to have medical problems associated with exposure to pesticides. These individuals must be notified before you apply general or restricted use pesticides within 500 feet of their listed locations.

**Address changes and new listings since the last registry are designated in this current registry by the characters + for new listing and @ for change(s). Each listing in the registry is designated as to the type of location. When calling an individual on the registry, please use the day and night telephone number(s) before using the alternate number.**

**Included in this publication:**

**Persons with listed email addresses have agreed to accept email notification in lieu of phone calls.**

You may distribute the application forms in the back of the registry should you receive an inquiry from an individual who wants information to be listed in the registry. If you need additional information concerning the registry, please contact our office at (717) 772-5231 or [pesticides@pa.gov](mailto:pesticides@pa.gov).

The Hypersensitivity Registry is also available online and is downloadable to registered PaPlants users at [www.paplants.pa.gov](http://www.paplants.pa.gov) under "Programs". Over 99% of the online listings include mapping to help you locate Registry listings. To register as a PaPlants user, you will need your PaPlants number and PIN which are included on your applicator and business applications, certification and license mailings.

Sincerely,

A handwritten signature in black ink that reads "Jessica Lenker".

Jessica L. Lenker  
Chief, Division of Health and Safety  
2301 NORTH CAMERON ST.  
HARRISBURG, PA 17110-9408  
717-772-5231  
FAX: 717-783-3275

## Try the Online Mapping Function to Locate Listings Close to Your Customers Register as a PaPlants User – look under “Programs” -> “Hypersensitivity/Apiary Search”

### Search for Hypersensitive Individuals / Apiaries

Search by Spraying Location or by Geographic Location

**Advanced Search - Filter By County**

**Display Options**

Display Map:   
 Types:  Hypersensitive Individuals     Apiary's

These mapped locations should only be used as a guide. Please note that the actual property line and distances may be different. It is the applicator's responsibility to determine if their application site is within 500 feet of the property line for the addresses listed in the Hypersensitivity Registry.

Information posted on this website may be different from what is published in the current printed Registry. This website is continually updated and displays the most up-to-date information including new listings and changes to contact information. However, the Department will not take enforcement actions based on the internet listing changes until they appear in the printed Registry.

## Pesticide Hypersensitivity Registration Information

### What is the Pesticide Hypersensitivity Registry?

The Pennsylvania Department of Agriculture (PDA) maintains a registry of individuals hypersensitive to pesticides. It is a listing of locations for people who have been verified by a physician to be excessively or abnormally sensitive to pesticides. These hypersensitive individuals may request to have listings of their home, place of employment, school (if a student), and vacation home placed in the Registry. A person will not be considered included in the Registry unless their name appears in the current published Registry.

The Registry is distributed to all commercial and public pesticide businesses on March 1<sup>st</sup> and July 15<sup>th</sup> each year. The pesticide application businesses are required to notify any person in the most recent registry if they will be making an application to an attached structure or outdoor above ground pesticide application within 500 feet of any listed location.

### What are the Notification Requirements?

Once you are listed in the Registry, pesticide businesses are required to make notifications to you 12 to 72 hours in advance of any pesticide application to an attached structure or an outdoor above ground application that they may make within 500 feet of any location that you have listed in the Registry. The notification may be made by speaking to an adult through personal contact, by telephone contact, leaving a message on your answering device, by certified mail, by posting a notice on the front door at the listed location or speaking to an adult at the alternate phone number you listed in the Registry.

The business must provide you their: business name, address, telephone number, the pesticide brand name and common name (if available), EPA Registration number of the pesticide, the location of the application and the proposed date and time of the application. The proposed application time may not exceed a 24-hour period.

**Remember: A listing in the Registry does not prevent the pesticide application from being made.**

### How Do You Have Your Name Listed in the Hypersensitivity Registry?

Obtain an application which is available online at: <http://www.agriculture.pa.gov/Protect/PlantIndustry> from your local pesticide businesses, or by contacting any PDA Office (listed on the back). Make arrangements with someone to be your alternate contact point. This person must be willing to receive calls when applicators cannot contact you directly and forward the information on to you. Complete the application using your legal address as your primary residence, daytime, nighttime and alternate telephone numbers. You must complete all required blocks or the application will be returned.

See your Pennsylvania licensed physician to have Part II of the form completed and signed. You may also wish to discuss what protective measures you need to take to protect your health in the event an application is made near you. Review your application for completeness and return it to: PA Department of Agriculture, Bureau of Plant Industry, 2301 N. Cameron St., Harrisburg, PA 17110-9408.

Before your name appears in the Registry, the information as it will be published will be mailed to you for your review for completeness and accuracy and requires your final approval. Because the Registry is a public document, the information you provide is considered public information. By submitting the application for publication you are granting the Department the right to publish your information in printed or electronic media.

### What Can I Do Until My Listing Appears in the Registry?

You can contact your neighbors, explain your situation and ask them to voluntarily notify you of applications they might make (the Registry only applies to applications made by commercial and public applicators, not to persons making pesticide applications to their own property). If they employ a pesticide application business, ask the name of the company, so you could write the business with a request to be notified pending the next publication of the Registry.

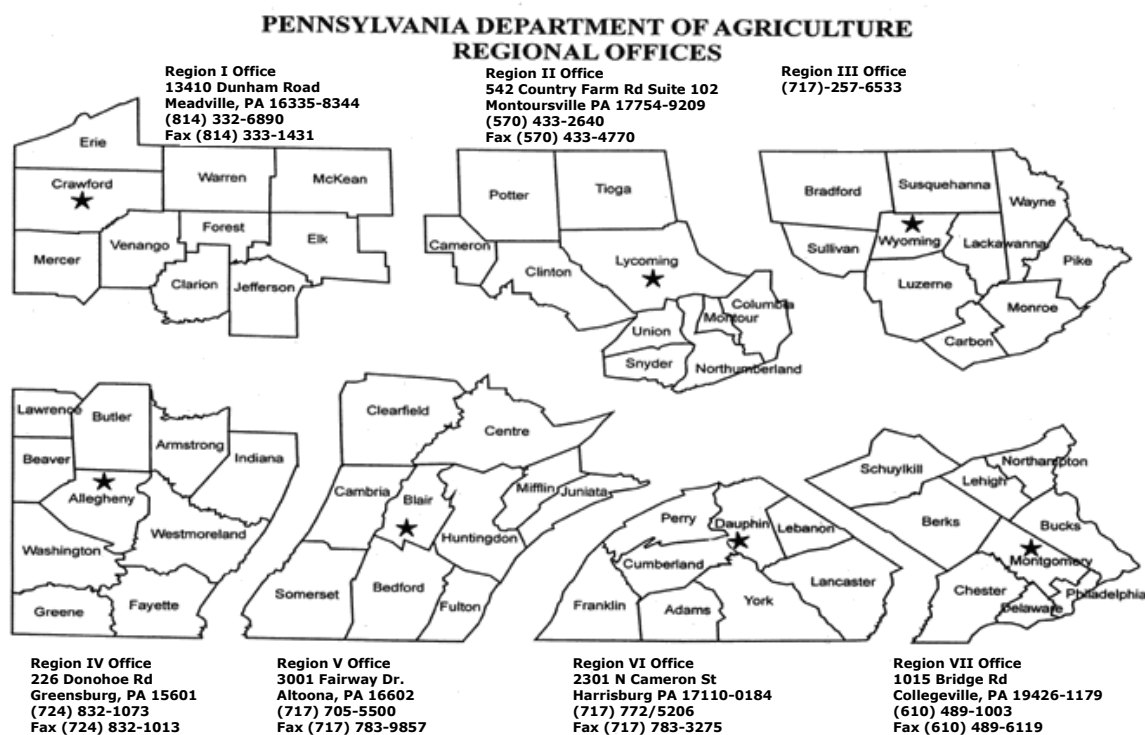

### How Do You Stay Listed in the Registry?

PDA will mail you a renewal application in October. You must review the information for accuracy and completeness, sign and return the application to PDA by November 30<sup>th</sup>. (You are not required to obtain a new medical verification for renewal.) **Should you not return the renewal application, your information will be removed from the Registry.** Should your information listed in the Registry change during the year you must notify PDA in writing of the changes to insure the accuracy in the next publication of the Registry.

### What if I am not Notified of a Pesticide Application After My Listing is in the Registry?

Once your listing is in the Registry, should a commercial or public pesticide applicator make pesticide application within 500 feet of your listing and fail to provide the required prior notification, we suggest the following:

Personally contact the applicator. Explain that you are listed in the Hypersensitivity Registry and need to be notified of pesticide applications. Contact the PDA Regional Office in your area and ask to speak to an Agronomics Products Inspector. They will record the information regarding your complaint and assist you in the appropriate manor. It is helpful if you can provide the company name and the "BU" number displayed on the side of the service vehicle along with the location of the application.

**Pennsylvania Department of Agriculture  
Registry of Pesticide Hypersensitive Individuals  
Application**

For Office Use Only

\_\_\_\_\_ Initial Application (Parts I & II)

**Directions:** Part I & II of the application must be completed for the individual's name to be placed in the Registry. All information for each location you wish listed must be completed (all boxes) or the application will be returned. The **required** "Alternate Telephone Number" is an individual willing to accept calls and forward information to you. Part II is not required for annual renewals.

**Part I – To be completed by the Hypersensitive Individual** \_\_\_\_\_ Renewal (Part 1 only)

I hereby request to have my name placed in the Pennsylvania Pesticide Hypersensitive Registry. I understand that the application information and the Hypersensitivity Registry are considered public documents and waive all rights to privacy pertaining to the information contained on this application or listed in the Pesticide Hypersensitivity Registry. I hereby give my permission to the Pennsylvania Department of Agriculture to publish this information and place it in full public view through printed and electronic media.
